

CCSS K-5 Math Vocabulary

<u>Grade K</u>	<u>Grade 1</u>	<u>Grade 2</u>	<u>Grade 3</u>
attribute	+	2 dimensional	1/2 inch
above	=	3 dimensional	angle
addition	>	a.m.	area
behind	<	analog	array
below	-	area	calculate
beside	add	associative property (rule)	circle graph
category	addend	capacity	classify
circle	addition	Celsius	compare
classify	analog clock	centimeter	complete
compare	associative property of addition	chart	compose
compose	attribute	commutative property (rule)	condense
composition	category	computation	congruent
cone	circle	congruent	cubic units
corner	closed figure	construct	cylinder
cube	commutative property of addition	cup	data
cylinder	compare	data collection	decimals
decompose	compose	degree	decompose
decomposition	composite shape	digit	denominator
describe	cone	direction	describe
equal	count on	edge	diagram
equal to	cube	elapsed time	digit
equations	cylinder	estimate (estimating)	division
expressions	data	even	edge
flat	decompose	face	elapsed time
greater	difference	Fahrenheit	equal groups
greater than	digit	fixed unit	equation
heavier	digital clock	foot	equivalent
heavy	equal to	inch	equivalent forms
height	equal shares	inverse relationship	estimate
hexagon	equation	justify	estimation
in front of	fourth of	linear	expanded form
length	fourths	measurement	explain
less	greater than	meter	expression
less than	half circle	number combinations	face
light	half hour	number sentence	hundreds place
lighter	half of	numerical data	hundredths
long	halves	numerical order	inverse relationship
longer	hour	odd	justify
measurable	iterate	ordinal number	length
more	length	p.m.	line

CCSS K-5 Math Vocabulary

<u>Grade K</u>	<u>Grade 1</u>	<u>Grade 2</u>	<u>Grade 3</u>
next to	less than	pattern	line of symmetry
non-measurable	longer	pint	line segment
orientation	longest	place value	multiplication
position	making tens	plane shape	numerator
rectangle	multiple of ten	prediction	outcome
shape	number	reasonable	perimeter
short	numeral	rectangular prism	place value
shorter	ones	rule of linear pattern	plot
size	place value	solid shape	point
solid	quarter of	standard unit	probability
sort	quarter circle	strategy	product
sphere	rectangle	systematic	pyramid
square	sequence	table	quadrilateral
subtract	shares	tally	quotient
subtraction	shorter	temperature	regroup
tall	shortest	thermometer	repeated addition
taller	side	time interval	right angle
three-dimensional	sort	unit fraction	round
triangle	square	vertex (vertices)	solve
two-dimensional	subtract	weight	sphere
vertices	subtraction	yard	square units
weight	sum		standard form
	tens		support
	3-dimensional		symmetry
	time		tenths
	triangle		value
	2-dimensional		vertex
	whole number		vertices

<u>Grade 4</u>	<u>Grade 5</u>
acute	acute triangle
algorithm	algebraic expression
area model	area
array	braces
associative property	bracket
attribute	calculate
calculate	classify
classify	common denominator
commutative property	compare
compare	compass
complete	complete
congruent	complex shape
data	composite number
decimals	convert
denominator	coordinate plane
describe	decimal
diagram	degrees
dividend	describe
divisor	diagram
equal to (=)	diameter
equation	distributive property
equivalent	dividend
estimate	divisor
expanded form	equilateral triangle
explain	equivalent
expression	estimate
formula	expanded form
fourths	explain
frequency table	factor
greater than (>)	gram
halves	improper fraction
hundredths	isosceles triangle
identity property	justify
improper fraction	kilogram
justify	linear equation
less than (<)	metric
line plot	mixed number
mixed number	mode
numerator	multiple
oblique lines	obtuse triangle

<u>Grade 4</u>	<u>Grade 5</u>
obtuse	octagon
parallel	ordered pair
parallelogram	ounce
perimeter	parallelogram
perpendicular lines	parentheses
plot	pentagon
polygon	percent
probability	plot
product	polygon
properties	pound
quadrilateral	prime number
quotient	product
ray	proper fraction
rhombus	protractor
right angle	quotient
rounding	radius
solve	range
square centimeter	reciprocal
square inch	rectangular solid
square meter	reflectional symmetry
square units	right triangle
square yard	rotational symmetry
standard algorithm	scalene triangle
standard form	solve
straight angle	standard form
support	support
symmetry	surface area
tally	thousandths
tenths	ton
time interval	trapezoid
trapezoid	variable
variables	volume
zero property	x-axis
	y-axis
